

GLASSHOUSE GROUP UK LTD

LETTER OF INTENT

*Discovery, Pilot Scoping and Proposed Pilot Collaboration***Parties**

Party	Full Legal Name	Details
Platform Provider	Glasshouse Group UK Ltd	Registered in England and Wales Trading as 360Engage Registered office: 5, Keith Park Crescent, Biggin Hill, Westerham, England, TN16 3ER
Club	[FULL LEGAL NAME OF CLUB]	Registered office: [INSERT] Company number: [INSERT, if applicable]

Date: [INSERT DATE]**1. Background**

Glasshouse Group UK Ltd has developed 360Engage, a digital fan engagement, commerce and insight platform designed for professional sports organisations. The platform is intended to support supporter interaction, campaign activation, first-party data capture, fan insight generation and related commercial use cases through conversational and digital workflows.

The Platform is developed and operated by Glasshouse with a technology partner, BioSquares (as applicable). For clarity, the Club's relationship under this Letter of Intent is with Glasshouse, unless and until the Parties agree otherwise in a definitive written agreement.

The Parties wish to record their intention to collaborate in an initial discovery and pilot scoping process and, if the Parties remain aligned, to negotiate in good faith a statement of work and related pilot agreement for the deployment of 360Engage within the Club's environment.

2. Purpose

The purpose of this Letter of Intent is to record the basis on which the Parties intend to:

- undertake a structured discovery process to assess the Club's objectives, operational requirements and relevant use cases;
- participate in pilot scoping and solution design discussions;
- develop, in good faith, a draft statement of work setting out the proposed pilot scope, implementation approach, deliverables, timeline and commercial framework; and
- provide an appropriate framework for information sharing while protecting confidential information and regulating permitted publicity.

3. Nature of this Letter of Intent

Except for Clauses 9 and 10, this Letter of Intent is non-binding and is intended only as a statement of present intention. It does not oblige either Party to enter into any further agreement, proceed with any pilot, or conclude any transaction or commercial arrangement.

Nothing in this Letter of Intent creates a partnership, joint venture, agency relationship or exclusivity arrangement between the Parties.

Either Party may withdraw from discussions at any time before a definitive written pilot agreement is signed, without liability, save in respect of any binding obligations expressly stated in this Letter of Intent.

4. Discovery and Pilot Scoping Process

Following the signature of this Letter of Intent, the Parties shall use reasonable endeavours to engage constructively in a discovery and pilot scoping process.

That process is expected to include:

- an initial discovery session between Glasshouse and the Club's nominated representatives;
- discussion of the Club's supporter engagement, sponsorship, merchandising, data and operational objectives;
- identification of the proposed pilot use cases, user journeys, technical touchpoints and implementation assumptions;
- consideration of data protection, security, governance and approval requirements; and
- preparation and refinement of a draft statement of work.

Each Party shall nominate appropriate personnel to participate in that process and shall negotiate the proposed statement of work in good faith. For the avoidance of doubt, an obligation to negotiate in good faith does not require either Party to agree terms that it does not consider acceptable.

5. Proposed Pilot Framework

Subject to agreement of a definitive written pilot agreement and statement of work, the Parties presently contemplate that the proposed pilot may include selected elements of the 360Engage platform relevant to the Club's priorities, which may include supporter engagement journeys, sponsor activation workflows, conversational commerce functionality, campaign reporting and insight dashboards.

Any description of the proposed pilot in this Letter of Intent is indicative only. No functionality, integration, timeline, performance commitment, service level, fee or commercial outcome is agreed or guaranteed unless expressly set out in a definitive written agreement signed by both Parties.

6. Platform Status and No Reliance

The Club acknowledges that, as at the date of this Letter of Intent, the platform may include MVP, beta or developmental components. Features, modules, integrations and workflows may be updated, refined, withdrawn or replaced during the discovery and pilot scoping process.

Accordingly, Glasshouse does not give any representation, warranty or undertaking in this Letter of Intent as to platform availability, uptime, suitability for any particular purpose, or achievement of any commercial, operational or technical result.

7. Data Protection, Data Ownership and Analytics

The Parties acknowledge that any personal data relating to supporters or other individuals processed in connection with any pilot shall be handled in accordance with applicable data protection law, including UK GDPR and the Data Protection Act 2018, and any additional laws applicable to the Club's jurisdiction or operations.

The Parties intend that, in relation to Club supporter personal data made available for the pilot or collected on the Club's behalf through the platform:

- the Club shall remain the data controller;
- Glasshouse shall act as data processor to the extent it processes such personal data on the Club's behalf;
- the Club shall retain ownership of such personal data; and
- the Parties shall enter into an appropriate data processing agreement before any live processing of personal data begins.

Nothing in this Letter of Intent transfers ownership of Club supporter personal data to Glasshouse.

Notwithstanding the above, Glasshouse shall retain ownership of: (i) the 360Engage platform and all related intellectual property rights; (ii) the data models, taxonomies, scoring methodologies, segmentation logic, analytics structures and other proprietary framework elements comprised in or generated by the platform; and (iii) the structured Fan Graph layer to the extent that it consists of Glasshouse's proprietary data architecture, derived relational framework, modelling structure and aggregated or de-identified analytical schema, excluding any personal data owned or controlled by the Club.

Subject always to applicable law, the Club may grant Glasshouse such limited rights to use Club supporter personal data as are expressly set out in the definitive pilot agreement and data processing documentation, solely for the purposes of delivering the pilot, producing agreed reporting and analytics, improving service performance for the Club, and exercising any other expressly agreed analytics rights.

Any rights of Glasshouse to use anonymised, aggregated or de-identified outputs for product improvement, benchmarking or internal analytics shall be subject to the definitive written agreement and must not permit the identification of the Club, its supporters or any individual unless separately agreed in writing.

8. Intellectual Property

Except to the extent expressly agreed in a definitive written agreement, no licence, assignment or transfer of intellectual property rights is granted by either Party under this Letter of Intent.

The Club retains all rights in its name, crest, marks, branding, content, materials and data. Glasshouse retains all rights in the 360Engage platform, its software, workflows, documentation, methodologies, know-how and related intellectual property, including any modifications, improvements or derivative developments made to its platform or proprietary framework during the course of the Parties' discussions or any pilot.

9. Binding Clauses: Confidentiality and Publicity

Clauses 9 and 10 are intended to be legally binding.

Each Party shall keep confidential all non-public information disclosed by or on behalf of the other Party in connection with this Letter of Intent, the discovery process, pilot scoping discussions and any proposed transaction or pilot.

A receiving Party shall not disclose the other Party's confidential information except to its employees, officers, professional advisers, prospective funders or investors, and actual or potential financing, strategic or commercial counterparties who have a need to know the information for the purposes of evaluating or supporting the proposed collaboration or Glasshouse's fundraising and business development activities, provided that in each case such recipients are subject to confidentiality obligations or duties of confidence no less protective than those set out in this Letter of Intent.

The confidentiality obligations in this Clause do not apply to information which the receiving Party can demonstrate: (i) is or becomes public other than through breach of this Letter of Intent; (ii) was lawfully known to it before disclosure; (iii) was lawfully obtained from a third party without restriction; or (iv) was independently developed without use of the confidential information of the disclosing Party.

A Party may disclose confidential information where required by law, regulation, court order or a competent authority, provided that, where legally permissible, it gives the other Party prompt notice before disclosure.

The confidentiality obligations in this Clause shall continue for two years from the date of this Letter of Intent.

Subject to the remainder of this Clause, the Club grants Glasshouse a limited right to refer to the Club by name in confidential investor, fundraising and strategic partner discussions for the purpose of demonstrating current commercial engagement and market interest in the 360Engage platform.

Glasshouse shall ensure that any such reference is fair, factual and not misleading, and shall not state or imply that: (i) the Club has endorsed the platform; (ii) the pilot has been agreed or launched; or (iii) any commercial outcome is assured, unless such statement is accurate and separately agreed in writing.

Glasshouse shall not use the Club's crest, logos, trade marks, brand assets, publicity materials, quotations or any public announcement naming the Club without the Club's prior written consent, such consent not to be unreasonably withheld or delayed in relation to accurate and customary investor-reference wording.

If requested by the Club, Glasshouse shall provide the proposed form of words for any investor-facing reference in advance, and shall act reasonably in taking account of the Club's comments.

10. Governing Law and Jurisdiction

This Letter of Intent and any dispute or claim arising out of or in connection with it, including any non-contractual dispute or claim, shall be governed by and construed in accordance with the laws of England and Wales.

The courts of England and Wales shall have exclusive jurisdiction to settle any dispute or claim arising out of or in connection with this Letter of Intent, including any non-contractual dispute or claim.

11. Miscellaneous

Each Party shall bear its own costs in connection with the preparation, negotiation and contemplated implementation of this Letter of Intent and any related pilot documentation, unless otherwise agreed in writing.

This Letter of Intent may be executed in any number of counterparts, each of which, when executed, shall constitute an original, and all of which together shall constitute one instrument. Signature by electronic means shall be effective.

EXECUTED BY THE AUTHORISED REPRESENTATIVES OF THE PARTIES ON THE DATE STATED ABOVE.
